

GEOFENCE – IMPORT

STEP 1

Log into the zootaLink platform and navigate to the Main page.

The screenshot displays the ZZOOTA platform interface. On the left, a sidebar contains a list of objects under the 'Objects' tab. The list includes 'Pre-start Test Logistics Corp. (11)' and ten 'Pre-start Test' entries (101-111), all with a status of 'Not connected' and a speed of '0 kph'. The main area shows a map of Brisbane, Australia, with various landmarks and streets visible. The bottom of the interface features a control panel with fields for 'Address:', 'Time:', 'Stop duration:', and 'Driver:', along with buttons for '+ Add sensor' and '+ Add service'.

Object Name	Status	Speed
Pre-start Test Logistics Corp. (11)	Not connected	0 kph
Pre-start Test 101	Not connected	0 kph
Pre-start Test 102	Not connected	0 kph
Pre-start Test 103	Not connected	0 kph
Pre-start Test 104	Not connected	0 kph
Pre-start Test 105	Not connected	0 kph
Pre-start Test 106	Not connected	0 kph
Pre-start Test 107	Not connected	0 kph
Pre-start Test 108	Not connected	0 kph
Pre-start Test 109	Not connected	0 kph
Pre-start Test 110	Not connected	0 kph
Pre-start Test 111	Not connected	0 kph

STEP 2

Select "Tools".

The screenshot displays the ZZOOTA application interface. At the top left is the ZZOOTA logo. The main area is a map of Brisbane, Australia, with various landmarks and streets visible. A red arrow points to a 'Tools' button in the top right corner of the map area. On the left side, there is a sidebar with a search bar containing 'pre-' and a list of objects. Below the list is a 'Run script ""' button. At the bottom, there are sections for 'Sensors' and 'Services', each with a '+ Add sensor' and '+ Add service' button respectively. The 'Sensors' section also includes input fields for 'Address:', 'Time:', 'Stop duration:', and 'Driver:'.

Object Name	Status	Speed
Pre-start Test Logistics Corp. (11)	✓	0 kph
Pre-start Test 101	✓	0 kph
Pre-start Test 102	✓	0 kph
Pre-start Test 103	✓	0 kph
Pre-start Test 104	✓	0 kph
Pre-start Test 105	✓	0 kph
Pre-start Test 106	✓	0 kph
Pre-start Test 107	✓	0 kph
Pre-start Test 108	✓	0 kph
Pre-start Test 109	✓	0 kph
Pre-start Test 110	✓	0 kph
Pre-start Test 111	✓	0 kph

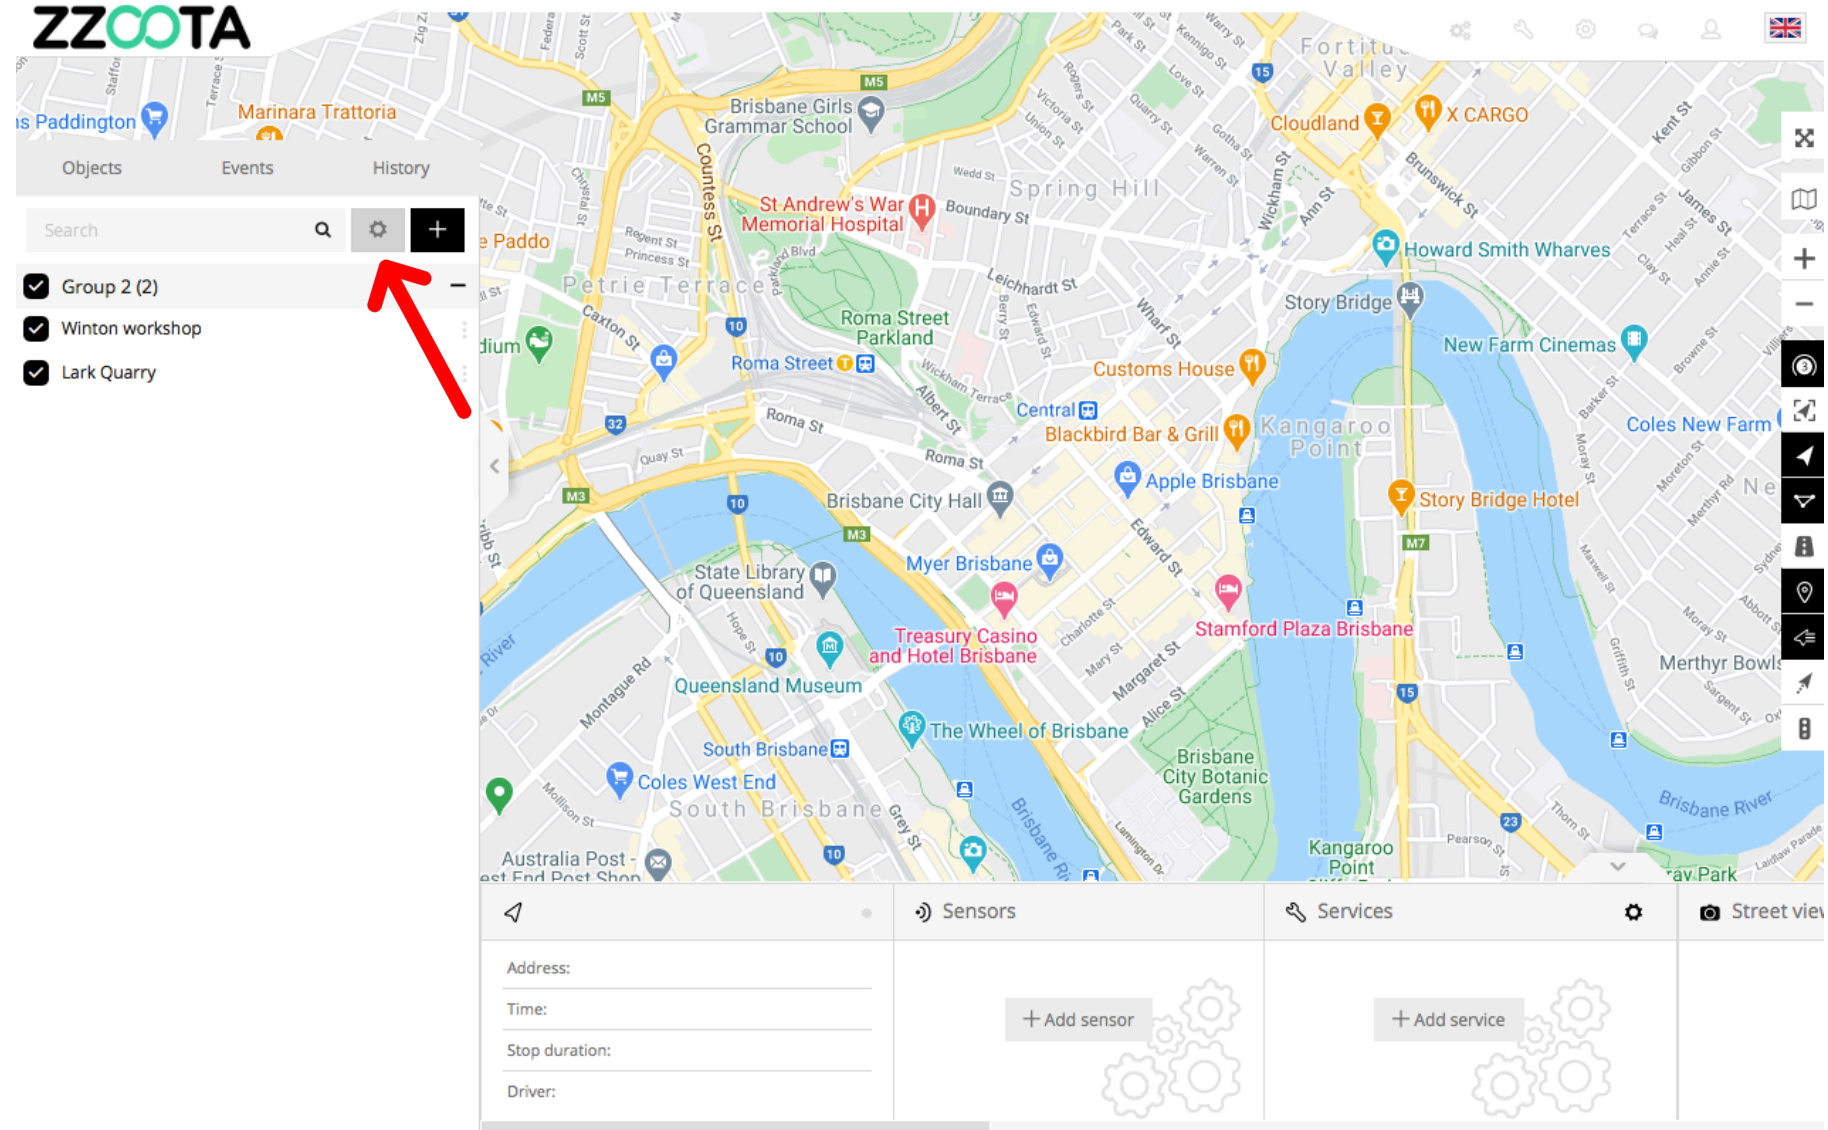

STEP 3

Select "Geofencing".

The screenshot displays the ZZOOTA web interface. At the top left is the ZZOOTA logo. The main area is a map of Brisbane, Australia, with various landmarks and streets labeled. A red arrow points to a location on the map near Cloudland. On the left side, there is a sidebar with a search bar containing 'pre-' and a list of objects. The list includes 'Pre-start Test Logistics Corp. (11)' and 'Pre-start Test 101' through 'Pre-start Test 111', all with 'Not connected' status and '0 kph' speed. Below the list is a 'Run script ""' button. On the right side, a dropdown menu is open, showing options: Alerts, Geofencing (highlighted), Routes, Reports, Ruler, POI, Show point, Show address, Send command, Camera / Media, Tasks, Maintenance, Dashboard, and Sharing. At the bottom, there are sections for 'Sensors' and 'Services', each with a '+ Add sensor' and '+ Add service' button respectively. The 'Sensors' section also has input fields for 'Address:', 'Time:', 'Stop duration:', and 'Driver:'.

STEP 4

Select the cog “” icon.

The screenshot displays the ZZOOTA mobile application interface. At the top left, the ZZOOTA logo is visible. Below it, there are tabs for 'Objects', 'Events', and 'History'. A search bar is present with a magnifying glass icon and a plus sign icon. A red arrow points to a gear icon (the cog icon) located next to the search bar. Below the search bar, there is a list of objects with checkboxes:

- Group 2 (2)
- Winton workshop
- Lark Quarry

The main part of the screen shows a map of Brisbane, Australia, with various landmarks and streets labeled. At the bottom of the screen, there are sections for 'Sensors' and 'Services'. The 'Sensors' section has a '+ Add sensor' button and a gear icon. The 'Services' section has a '+ Add service' button and a gear icon. The bottom right corner shows a 'Street view' icon.

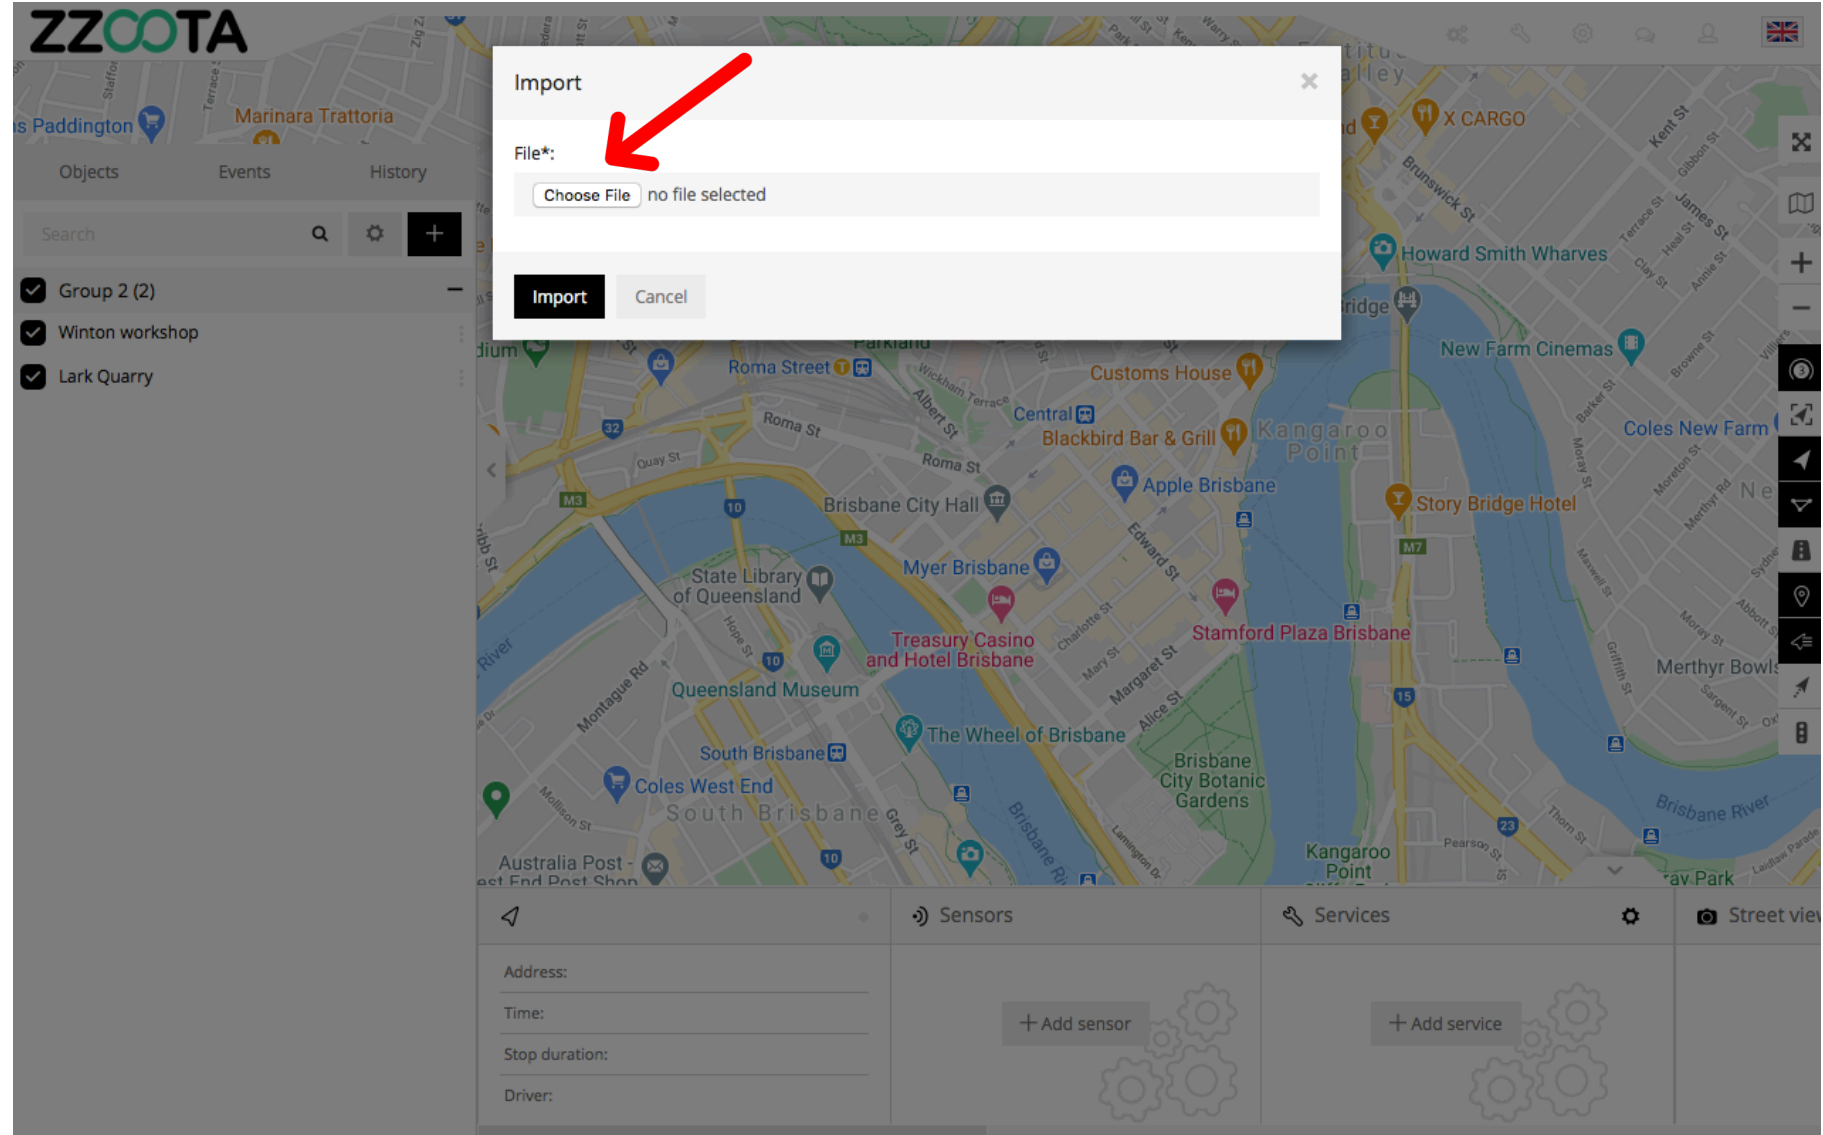

STEP 5

Select "Import".

The screenshot displays the ZZOOTA web application interface. At the top left, the ZZOOTA logo is visible. Below it, there are tabs for 'Objects', 'Events', and 'History'. A search bar is present, and a list of items is shown with checkboxes: 'Group 2 (2)', 'Winton workshop', and 'Lark Quarry'. A red arrow points to the 'Import' option in a dropdown menu. The main area is a map of Brisbane, Australia, showing various landmarks and streets. At the bottom, there are sections for 'Sensors' and 'Services', each with a '+ Add sensor' and '+ Add service' button. A 'Run script ""' button is located at the bottom left.

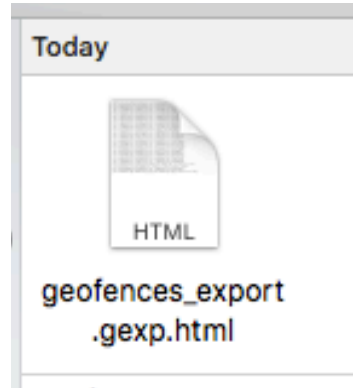

STEP 6

Select "Choose File".

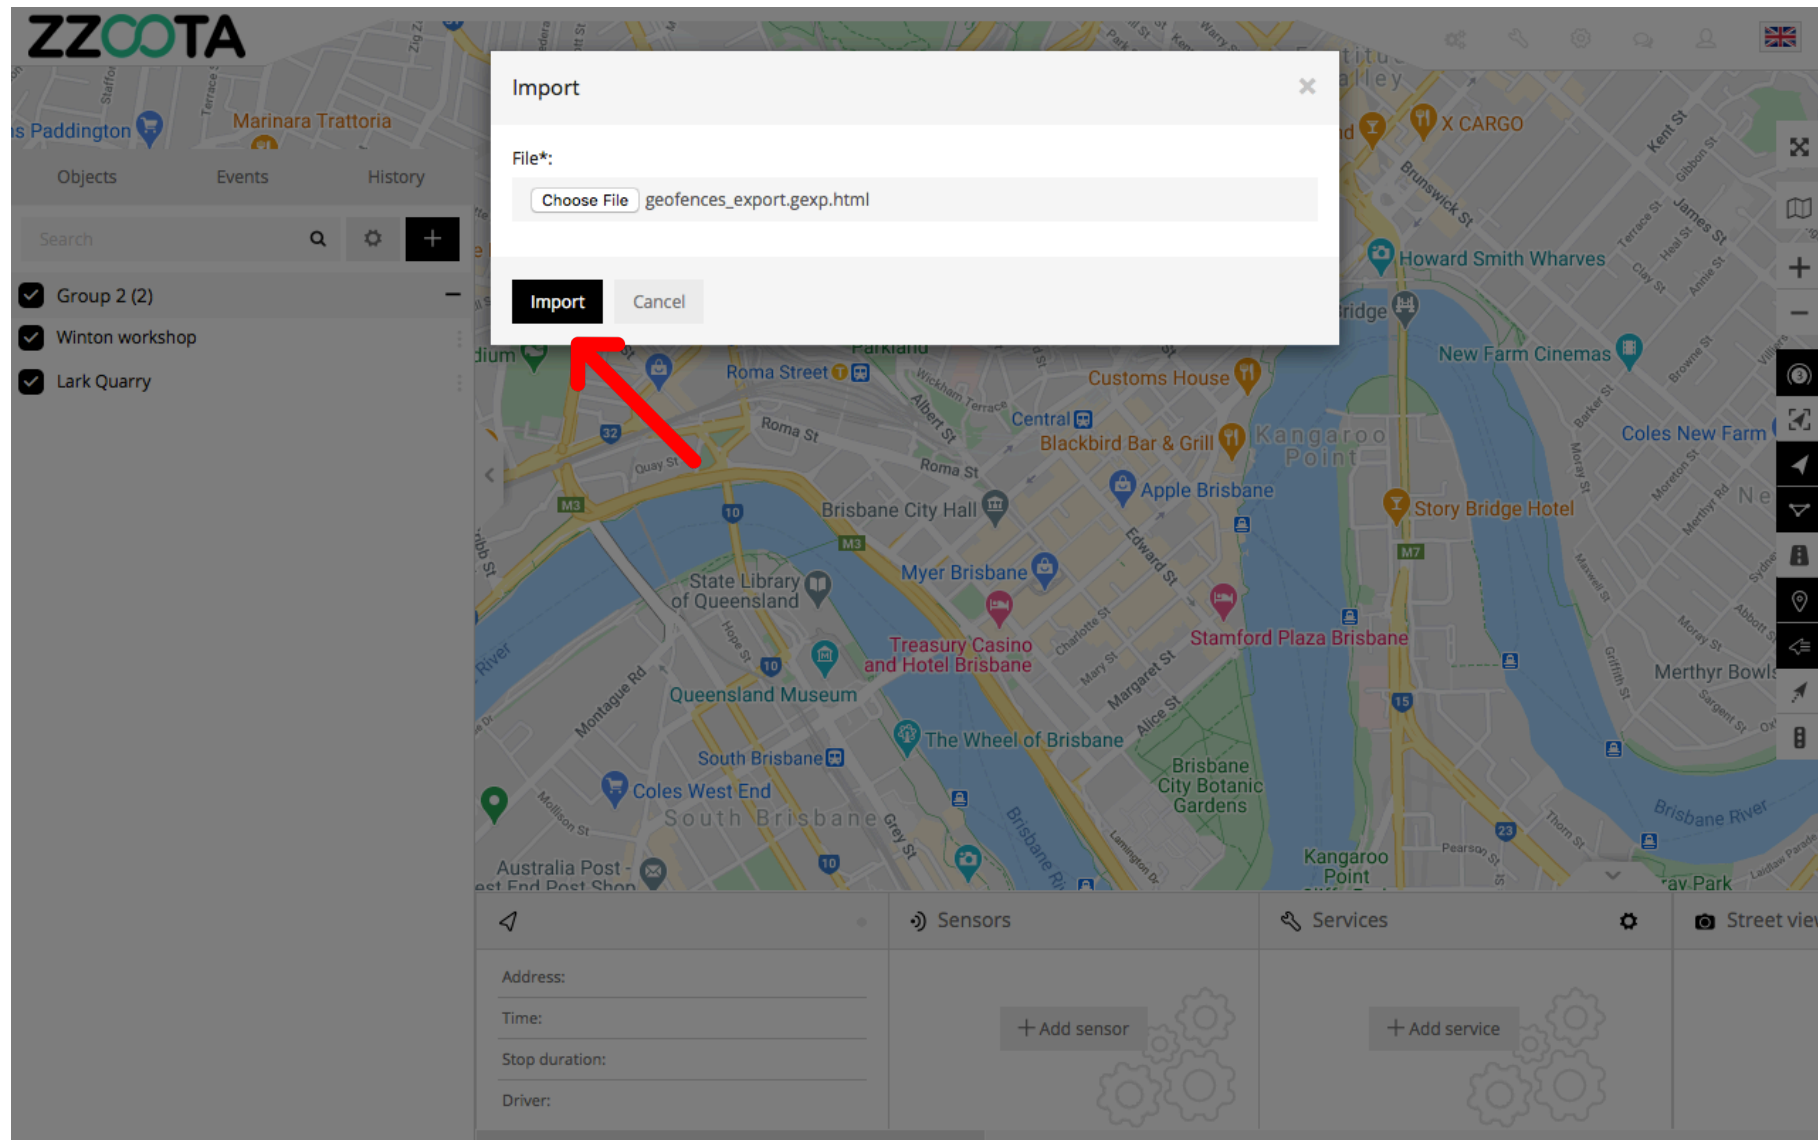

STEP 7

Find the saved file on your computer and upload.

STEP 8

Select "Import".

The geofences have now been imported.

The screenshot displays the ZZOOTA mobile application interface. At the top left, the ZZOOTA logo is visible. Below it, there are tabs for 'Objects', 'Events', and 'History'. A search bar is located below the tabs. On the left side, a list of imported geofences is shown, each with a checked checkbox:

- Group 2 (4)
- Winton workshop
- Lark Quarry
- Winton workshop
- Lark Quarry

The main part of the screen is a map of Brisbane, Australia, showing various landmarks and streets. A green bar at the top right of the map indicates that geofences have been successfully imported. At the bottom of the screen, there are sections for 'Sensors' and 'Services'. The 'Sensors' section includes input fields for 'Address:', 'Time:', 'Stop duration:', and 'Driver:', along with a '+ Add sensor' button and gear icons. The 'Services' section includes a '+ Add service' button and gear icons. A 'Street view' icon is also present in the bottom right corner.
